PCO WHAT, WHY, & HOW

What is a PCO?

PCO is the abbreviation for **Precinct Committee Officer**. Both the Democrat & Republican Parties have PCOs to represent each precinct.

Currently, there are 219 precincts in Kitsap County.

PCOs are elected (or appointed) to represent the people within their precinct to the party. This allows you to be a VOTING member of the party. PCOs ELECT THE COUNTY PARTY LEADERSHIP! They work for us!!!

Party Leadership determines the direction of the GOP in our area. Unfortunately, many PCO positions are NEVER filled leaving these precincts unrepresented.

PCOs can participate on committees focused on various issues important to you including candidate vetting for local races, legislator endorsement, election reform, community outreach & many others.

You can also help find viable candidates, register voters, actively campaign for your favorite candidate, etc.

You get to choose how involved you want to be. Spend as little as a couple hours a month or as many hours as you want.

This is a position of ACTION!
Meet new friends, work together to bring the Constitution back into focus. We the People working together to insure free speech, limited government & individual rights. Let's get visible & vocal in our local community on conservative issues!

Why become a PCO?

Have you ever thought to yourself "What has happened to my country?" or "My political party doesn't represent me anymore."

Mask mandates, vaccines for jobs, legislators who don't listen, abuse of emergency powers by the Governor, small businesses ordered to close.

Your first amendment rights eroding, social media banning voices who dare speak out against the "narrative", the FBI directed to investigate parents for voicing their concerns at school board meetings?

Are you tired of talking about it but not having an action plan to change things?

It's time for us as citizens to exercise the power of our collective voice. We need to hold our elected officials accountable. We can do that together by making our voices heard on issues that are important.

We can make a difference!
